

division (1)

division (2)

The diagram illustrates a long division process on a grid. The grid is divided into two main sections by a vertical purple line. The left section contains two rows of boxes, each with a red box on the left and a blue box on the right. A horizontal blue line is drawn below the first row. A red circle is placed on the right side of the red box in the first row, and a blue circle is placed on the right side of the blue box in the second row. A small black dash is positioned to the left of the red circle. The right section contains two rows of boxes, each with a red box on the left and a blue box on the right. A horizontal purple line is drawn below the first row. A vertical purple line runs through the center of the grid, separating the two sections.
